Clean up apps after export

Clean up your computer after eNoteFile export

Written by eNoteFile Team Written by enous.... Updated over a week ago

There are two main applications that you can uninstall when you complete your export; Dropbox and eNoteFile.

Uninstall applications:

Click on Start 🔄 type Control Panel

All Apps	Documents	Web	More 🔻

Storage clean up

Once the apps are uninstalled you can delete the encrypted Dropbox content which will usually be located under c:\Users\%USERNAME%\Dropbox.
